THE SPEAKEASY MURDER COMES TO BUENA PARK

A New Production of the Hit Prohibition-Era Murder Mystery Launches Spring 2026

Buena Park, CA — January 2026 — A new chapter of mystery, music, and mayhem is coming to Southern California as *The Speakeasy Murder & Other Acts of Prohibition* announces a brand-new production opening in **Buena Park**. Pre-production is officially underway, with performances set to premiere in **mid-May 2026** at the **Beach Boulevard Club**, located inside the Pirates Dinner Adventure complex.

Set inside a roaring 1920s speakeasy, *The Speakeasy Murder* blends immersive theatre, live music, comedy, and audience interaction into an unforgettable night where every guest is part of the mystery. The Buena Park production marks an exciting expansion of the show's growing national footprint.

"This show has always been about connection — between the performers, the audience, and the story unfolding right in front of you," said **Erik Hastings**, co-creator and producer. "Bringing *The Speakeasy Murder* to Buena Park allows us to reach an entirely new audience while staying true to the immersive, slightly dangerous fun that defines the experience."

Co-creator **Gary Littman** added, "From the moment pre-production began, the energy around this production has been electric. Buena Park is the perfect home for this next evolution of the show — vibrant, accessible, and full of entertainment lovers who appreciate something a little different."

Pirates Dinner Entertainment General Manager, **Dan Falls** emphasized the momentum behind the launch. "This isn't just a remount — it's a fresh production built specifically for this space and this community. We're excited to help EG Murder craft an experience that feels both cinematic and intimate, where the audience truly feels like they've stepped into another world."

Audition submissions are now being accepted, with casting to begin in the coming weeks. Performers interested in joining the Buena Park company are encouraged to submit materials as early as possible while pre-production continues.
